     36"x7'pc of canvas sewn above door that hangs to the ground.
- ◆ Ridge hole covers - - - - - \$ 30.00

## Water Proofing

Natural Untreated Army Duck Canvas does not necessarily need waterproofing. When canvas gets wet the fibers swell creating a natural waterproofing effect. Good Quality canvas does not require waterproofing which is the ONLY type of canvas use at Thunder Mountain Tent & Canvas.

## Advantages of a Thunder Mountain Wall Tent

1. 12.98 oz. Army Duck treated or untreated.
2. Large reinforcements sewn into all stress areas.
3. Lock Stitch Sewn (no seams to come unraveled).
4. Heavy duty #4 spur grommets in eaves and each end of peak.
5. Heavy duty webbing for loops.
6. Oiled manila rope sewn into eaves (oiled rope won't soak up moisture and swell).
7. 6" overlap doors, w/ties
8. Ridge Pole openings in peak ends.

## Thunder Mountain Wall Tents Include:

- ◆ 1/4" oiled manila rope as guy ropes
- ◆ Rope adjusters hardwood blocks
- ◆ Canvas tent bag w/draw rope
